## Instructions

Title I Schoolwide schools, must complete all of the following sections of this ACIP diagnostic:

- Title I Schoolwide Diagnostic
- ACIP Assurances
- Parent and Family Engagement Diagnostic
- Coordination of Resources - Comprehensive Budget Diagnostic
- eProve™ strategies - Goals & Plans

*Parent Surveys must be done annually, but it can be done electronically in eProve or by paper.*

## Title I Schoolwide Diagnostic for ACIP

### **1. How was the comprehensive needs assessment conducted?**

In the Spring of 2023, teachers, students and parents of Striplin Elementary School (SES) were asked to consider areas of need to address during the 2022-2023 school year. Surveys were completed by all three stakeholder groups. During May, 2023, faculty and staff also completed a Program Evaluation and a Needs Assessment Survey identifying academic and professional needs to be addressed during the 2023-2024 school year. Throughout the 2022-2023 school year, faculty and staff met monthly (data meetings, faculty meetings, RTI meetings and in-service sessions) to discuss individual students who were and were not meeting proficiency levels and to identify barriers to success that existed at SES. Attendance and behavior were also addressed at these meetings. Data gathered from Powerschools, local assessments, evidence based programs, ACAP, DIBELS and teacher-made evaluations provided evidence to support the identified areas of strengths and weaknesses. Administrators led data meetings in which assessment scores were analyzed. Instructional changes were made as a result of this analysis. New early reading and math assessments are being utilized to effectively measure the desired learning outcomes. All students will be assessed during August and September, 2023. Data for student groups performing at or above proficiency will be evaluated and strengths noted. Data for subgroups that perform poorly will be identified, evaluated and discussed so that teachers, administrators and support staff can conduct strategic planning to improve the achievement of each group. In August, parents are given an overview of Title I and federal requirements. Each meeting they are allowed an opportunity to share input. Upon completion of the ACIP draft, it will be presented to the faculty and stakeholders for approval and suggestions. The completed ACIP will be submitted to the Gadsden City Board of Education for approval and signatures.

### **2. What were the results of the comprehensive needs assessment?**

Multiple strands of data are analyzed to identify school-wide strengths and weaknesses and plan for success. Demographic information, such as attendance and discipline speak to the culture of the school. Academic achievement is measured through formative and summative

assessments. Expectations for attendance, behavior and learning are established and goals are set. Striplin Elementary School (SES) implements a comprehensive student assessment system. Teachers determine short-range learning by using locally made rubrics and assessments. Journals and non-verbal assessments are also used. Teachers collaborate to analyze data and make instructional changes during planning sessions, grade level meetings and data meetings. Practices throughout SES continually prove the effectiveness of the programs and allow the enactment of consistent modifications when needed. Teachers and administrators collect and maintain data in INOW related to student learning. Attendance and discipline data are analyzed to determine their impact on student success. Special Education, Gifted, EL, 504 teams, Counselors and our Reading Specialist also keep records to track student academic growth and needs. Teachers use item analyses from math and reading tests to determine strengths and weaknesses. School personnel relate sets of data from diverse assessment sources to ensure student learning, consistency in classrooms, quality performance across curriculum and throughout the school. Collected data from summative assessments allow comparison of student growth from year to year and across the county and state. Collections of data were analyzed to determine goals that will drive instruction. The Gadsden City Board of Education and AES personnel abide by established policies regarding data collection and analysis. The school aCIP outlines how data will be used to improve instruction, student learning, and the effectiveness of programs. Teachers are trained to evaluate, interpret, and use data. Routine instruction and the effective use of data and new assessment resources are introduced to SES and Gadsden City. During training, teachers learn how to extract, interpret, and apply usable data from test results. The needs of EL students are identified and teachers are trained on the WIDA standards. Teachers also receive training pertaining to data assessment for the benefit of special needs students. Grade-levels will analyze their grade-level data and create Grade-level Action Plans to address areas in need of improvement. Administrators, as well as teachers analyze data to confirm readiness for success at the next level. Learning programs are designed and implemented as the foundation for successive levels. SES closely monitors regression, and remediation/intervention is applied in a timely manner, formally through RTI (Response to Intervention) or informally through reteaching in the classroom. School personnel continuously appraise and revise plans and programs for school improvement to provide optimal learning for all students. Policies and plans for school improvement are documented in the Striplin Elementary aCIP. Continuous improvement is desired and will be achieved through ongoing efforts to implement Alabama' Multi-Tiered System of Supports

where meeting the needs of the whole child helps eliminate any interferences to optimal instruction and learning for all students.

### **3. What conclusions were drawn from the results?**

Student data will be collected through various assessments during August/ September 2023. New assessment measures have been put in place that are designed to effectively measure the desired learning outcomes. These data results will be collected and analyzed. Assessment scores from DIBELS , ACAP, and STAR will be carefully analyzed to determine strengths and identify areas of focus. Specific to reading, a Student Reading Improvement Plan (SRIP) will be written for students who show a reading deficiency. The results of the Spring 2023 Needs Assessment were shared with teachers during in-service in August 2023. Data results and input from stakeholders was discussed and several conclusions were drawn that will assist faculty and staff throughout the 2023-2024 school year. Standards and data will drive instruction in all academic areas for all grade levels. Kindergarten teachers will focus on reading readiness and consistently use multi-sensory strategies and comprehension strategies that focus on the text. Emphasis on numeracy concepts and exploration of real life math problems will help lay a strong foundation upon which first grade teachers can build. In reading, the use of novels, chapter books, and a variety of literary pieces (poems, essays, short stories) will provide quality text from which to teach concepts, skills, vocabulary and critical thinking. Teachers will utilize text-dependent questions to assist students in digging deeper into the text. Teacher modeling and explicit instruction will play a key role in developing critical thinkers. In math, all students in grades 1-5 will receive STEAM instruction. Teachers will use STAR Math CBM to strengthen basic skill fluency and increase the rigor as they provide instruction that focuses on application of math concepts. Careful analyses of student writing has highlighted the following needs: explicit instruction in the modes of narrative, expository and persuasive writing and explicit instruction in locating evidence from a text in order to make or support an argument. Teachers will model thinking and writing processes to aid students in seeing the process of writing from brainstorming through publishing. Journals/ constructed responses will continue to be used across all content areas. Attendance will continue to be addressed. Parents will receive notification for excessive absences or tardies. Parents will be held accountable for providing written excuses for student absences. Academic growth is a strength for W.E. Striplin Elementary for reading and math. During the academic year of 2022-2023 85% of Math students demonstrated the highest level of academic growth. More emphasis needs to be placed on student achievement level.

#### **4. What information was concluded as a result of analyzing perception, student achievement, school programs/process, and demographic data?**

The comprehensive needs assessment that was conducted in the Spring of 2023 provided valuable insight to guide Striplin Elementary School through the coming academic year. Academic emphasis will be placed on reading, math and writing. In reading, faculty and staff will design lessons that will teach students to dig for deeper understanding of literary and informational texts by focusing on text dependent questions, key ideas and details and structure. Instructional leaders, teachers, and staff are working to understand and implement the research behind the Science of Reading. The alignment and training of systematic and explicit instructional practices in the key areas of language development of phonological awareness, phonics, vocabulary, fluency, and comprehension are being provided in an effort to ensure reading success for all students. In math, teachers will increase the rigor by requiring students to apply mathematical concepts in order to solve real world problems using a STEAM model. Computational fluency will be addressed through a systematic program that provides daily drill in a fun and motivating format. Writing as a process will be taught and students will be exposed to a variety of genres across all content areas. Journals/constructed response writings will be utilized across all content areas. Technology will be utilized as a vehicle to deliver quality instruction and provide meaningful practice. Differentiation of instruction occurs through small group instruction and allows teachers to identify and target specific learning needs. Individual academic plans provide for differentiated instruction for students with disabilities, deficits that substantially interfere with learning and language acquisition learners. English as a Second Language will be the program we use to address the needs of our EL learners. Cultural emphasis will be placed on attendance and behavior. Careful monitoring of attendance will ensure learners are present for quality instruction. Communication between school and home regarding attendance will provide accountability for both stakeholder groups. Communication between school and home is a vital process that should be noted. Correspondence with parents regarding student progress occurs through weekly folders. Parents use these folders to communicate concerns and questions. Monthly newsletters from the principal notify parents of pertinent information and provide additional school-home communications. The Principal will also communicate with parents through weekly callouts and emails/texts. Teachers utilize e-mail, class newsletters, phone calls, school conferences, classroom websites, web-based notification sites and blogs to further communication. The school marquee, website, monthly school newsletter, and teacher newsletters notify the community of current school events.

## **5. How are the school goals connected to priority needs and the needs assessment?**

W.E. Striplin Team Members include students, teachers, counselors, parents, Principal, and everyone that touches our campus are considered stakeholders. Alabama's Multi-Tiered System of Supports serves as a systematic, inclusive, and a comprehensive process to review, revise, and communicate our school's purpose for academic success. This purpose is translated into goals that become part of the school's Continuous Improvement Plan (aCIP). The Administrator, teachers, students, and community stakeholders are involved in decision making and planning to ensure student success in all areas of life. The SES mission statement is reviewed annually by stakeholders. The mission statement is evaluated in light of the Needs Assessment, data analysis and other stakeholder input. School leadership and staff support an ongoing commitment to shared values and beliefs about teaching and student learning. Teaching and learning are supported by programs that challenge students to acquire knowledge, learn to think, and practice life skills. Programs are in place to address priority needs and facilitate growth in all areas. Trained teachers are often apprised of new strategies and research. Reading fluency and comprehension are monitored regularly by DIBELS, Topic/Unit Tests, and Scantron. Math computational fluency is approached consistently and systematically so that a solid foundation of basic facts is achieved. Teachers increase rigor as students apply conceptual understanding of mathematical practices in order to solve problems by using the STEAM model. Students benefit because academics and real life are connected. The school uses Response to Intervention (RtI) to monitor the achievement of struggling students. Stakeholder meetings are conducted and data is analyzed to track progress and plan for future success. Parents are informed of results. Other programs in place to meet the needs of students are English Learner, Gifted, Speech, Occupational Therapy, Physical Therapy, Vision Therapy and Special Education. The programs are administered in a fair and equitable manner to meet the various needs of children. Processes are followed to place and monitor the children in the programs. Data is collected, analyzed, and used to guide the learning of all students. Documentation demonstrates the involvement of stakeholders in the shared beliefs about teaching and learning. Participants are involved in meetings and are asked to share in the decision making process regarding education at this school. The decisions and policies made are communicated through the school website, newsletters, announcements, principal callouts and other parent centered meetings. Clear expectations of excellence are told to students by the administration, teachers, peers, and parents. Instructional practices are reviewed and assessed to maintain quality education in the classroom. Classroom standards are directed by the Pacing Guides, and the College and Career Ready Standards adopted and mandated by the State of

Alabama. Teaching Effectiveness, Walkthroughs and Eleot are the processes used to document educator strengths and weaknesses. Regular classroom visits by the administrator holds teachers accountable for quality instruction. Indication of active student engagement, deep understanding, and the ability to apply knowledge is supported by notes from observations, report cards, and data from school, county, and national assessments. School leadership and staff hold one another accountable to high expectations for professional practice. Through collaboration in regular grade level and data meetings, information about students in general or specific students is shared and evaluated. Professional practices are discussed and implementation of best practices are planned. Ideas are exchanged about how to increase academic growth and promote the acquisition of life skills. Evidence of the meetings can be found in notes and agendas. The aCIP guides goal setting and aligns programs and practices to the mission statement and the growth needs of the school. During yearly reevaluations, revisions are made to ensure quality instruction and excellence in educating the whole child.

## **6. How do the goals portray a clear and detailed analysis of multiple types of data?**

Multiple strands of data are analyzed to identify school-wide strengths and weaknesses and plan for success. Demographic information, such as attendance and discipline speak to the culture of the school. Academic achievement is measured through formative and summative assessments. Expectations for attendance, behavior and learning are established and goals are set. SES implements a comprehensive student assessment system. Teachers determine short-range learning by using locally made rubrics and assessments. Journals and non-verbal assessments are also used. Teachers collaborate to analyze data and make instructional changes during planning sessions and grade level and data meetings. Practices throughout SES continually prove the effectiveness of the programs and allow the enactment of consistent modifications when needed. Teachers and administrators collect and maintain data in PowerSchool related to student learning. Attendance and discipline data are analyzed to determine their impact on student success. Special Education Teachers and the Reading Specialist also keep records to track student academic growth and needs. Teachers use item analyses from math and reading assessments to determine strengths and weaknesses. School personnel relate sets of data from diverse assessment sources to ensure student learning, consistency in classrooms, quality performance across curriculum, and throughout the school. Collected data from summative assessments allow comparison of student growth from year to year and across the county and state. Collections of data are analyzed to determine goals that will drive

instruction. The Gadsden City Board of Education and SES personnel abide by established policies regarding data collection and analysis. The school aCIP outlines how data will be used to improve instruction, student learning, and the effectiveness of programs. Teachers are trained to evaluate, interpret, and use data. Routine instruction and effective use of data updates teachers as new assessment resources are introduced to SES. During training, teachers learn how to extract, interpret, and apply usable data from test results. Teachers also receive training pertaining to data assessment for the benefit of special needs students. The Administrator, as well as teachers, analyze data to confirm readiness for success at the next level. Learning programs are designed and implemented as the foundation for successive levels. SES closely monitors regression, and remediation is applied in a timely manner, formally through RTI or informally through reteaching in the classroom. School personnel continuously appraise and revise plans and programs for school improvement to provide optimal learning for all students. Policies and plans for school improvement are documented in the Striplin Elementary aCIP. Continuous improvement is desired and will be achieved through ongoing efforts to use multiple types of data to find and resolve weaknesses and implement improvements in instruction and learning for all students.

**7. How do the goals address the needs of the whole school population and special recognition to children who are disadvantaged?**

Every student in grades K-5 will be given an assessment. Kindergartens through grade three are each administered the DIBELS three times annually. Every student takes a STAR Reading and Math test three times a year or more. For non readers the Early-Literacy test is given. All students are using the computer lab's various programs for which the teacher programs the appropriate level of instruction. The entire school participates in Accelerated Reader. The ACAP will be administered to the second, third, fourth, and fifth grade students. The ELL students are given the ACCESS. In addition, each teacher gives teacher made tests and textbook unit tests for classroom assessment. Grades K-5 will follow envision lesson plans and administer monthly tests that cover the skills that have been taught for the month and discussions about their child's progress. Testing data is evaluated by the RTI Team when a student is referred. Teacher representation and input is included on the schools' budget committees, policy committees, textbook selection committees, and school calendar committees. Teachers from each school serve annually to create monthly lesson plans and monthly tests.

Goals established in the Continuous Improvement Plan are generated from data analysis, stakeholder input and the Needs Assessment conducted in

the spring. All goals address the needs of the school population. High expectations are established for all students. Teachers personalize instructional strategies to address individual learning needs of students as needed. Intervention and support programs are in place to meet the unique learning needs that exist at SES. Our Reading Coach provides intense instruction for those students in K-3 that are in great need. Specialized plans, such as RtI, IEP, 504 and LEP provide instructional and environmental accommodations to ensure equal access to learning.

**1. Identify the instructional strategies and methods used that strengthen the academic program in the school, increase the amount and quality of learning time, and help provide an enriched and accelerated curriculum, which may include programs, activities, and courses necessary to provide a well-rounded education.**

Various instructional strategies and methods are used to strengthen the academic program at SES. There has been a focus on STEAM (Science, Technology, Engineering, Arts, Math) instruction in the after school program. Freckle is used by students for online instruction and practice. Freckle has a focus for math, reading, and science. Students work through concepts and skills geared to their individual areas for improvement. By reading AR books and completing online quizzes, students gain comprehension skills. Within the classroom, teachers use differentiated instruction based on the learning styles and abilities of their students. Data drives this instruction so that teaching is explicit and strategic. For those students who need additional intervention instruction, the PST works together to create an RtI plan for either reading, math, or behavior that focuses on students' weaknesses and guides additional instruction that can help students be successful in the classroom. Additionally, data is used to provide individual Student Reading Improvement Plans (SRIP) for students showing reading deficiencies in one or more key areas of literacy development as defined by the Science of Reading. Teachers have been trained in using multisensory strategies and strive to integrate activities that engage all types of learners - visual, auditory, kinesthetic, and tactile. Teachers and students work together to set individual SMART goals based on data related to Scantron Performance Series and DIBELS 8. Teachers place an emphasis on strategic teaching in all subject areas and use formative assessments to help drive instruction. A pull-out class is provided for those students in grades three - five who have qualified for the Gifted Program. This instruction provides enrichment and acceleration as these students use their unique abilities and creativity. All of these strategies, methods, and programs increase student growth by increasing student

engagement and motivation and broadening creativity and critical thinking skills.

Goal 1: Engage and Empower the Learner Through Technology  
Measurable Objective 1: 50% of Kindergarten, First, Second, Third, Fourth and Fifth grade Black or African-American, Asian, White, Economically Disadvantaged, Gifted and Talented, Hispanic or Latino, Students with Disabilities, English Learners, Two or More Races, American Indian or Alaska Native and Native Hawaiian or Other Pacific Islander students will demonstrate a behavior use digital tools, individually and collaboratively, in and out of the classroom to gather, organize, evaluate, and share in Career & Technical. Strategy 1: Parent/Student Communication - Provide and improve technology methods for parent and student communications. iNow Home Portal- Parents ability to view student grades and assignments. Teachers use the gradebook portion of iNOW and make that information available for parents and students to view. Goal 2: At least 3% of students at W E Stirplin Elementary students will become more proficient in reading. Strategy1: Strategic Teaching Strategies - All content-area teachers will open each lesson with a posted student-friendly outcome, which will be revisited throughout the lesson for understanding (formative assessment). Teachers will begin each class by establishing a purpose for the lesson and will use before, during, and after strategies to engage students throughout the lesson. Category: Develop/Implement College and Career Ready Standards Research Cited: Alabama Reading Initiative and AMSTI research Research Cited: Alabama Reading Initiative and AMSTI research Goal 3: At least 3% students at W E Striplin will become more proficient in math. Strategy1: Strategy1: Strategic Teaching - Teachers will begin each class by establishing the objectives for the lesson. They will use before, during and after strategies to engage students throughout the lesson. Goal 4: Our vision is to engage and inspire students. It will be accomplished by exposing students to a variety of settings and activities.

**2. Address the needs of all children in the school, but particularly the needs of those at risk of not meeting the challenging State academic standards, through activities which may include—**

- **counseling, school-based mental health programs, specialized instructional support services, mentoring services, and other strategies to improve students' skills outside the academic subject areas**

- **preparation for and awareness of opportunities for postsecondary education and the workforce, which may include career and technical education programs and broadening secondary school students'**

**access to coursework to earn postsecondary credit while still in high school (such as Advanced Placement, International Baccalaureate, dual or concurrent enrollment, or early college high schools**

**• implementation of a schoolwide tiered model to prevent and address problem behavior, and early intervening services, coordinated with similar activities and services carried out under the Individuals with Disabilities Education Act (20 U.S.C. 1400 et seq.)**

Small group instruction is provided for all students within the RtI Tier I framework. This instruction focuses on weaknesses as well as strengths. For those students who need additional intervention instruction, RtI plans for reading, math, and/or behavior are written to provide for more instructional time and specific monitoring tools. Teachers use Performance Series results to specifically target objectives that are areas of weakness for students. Teachers meet approximately every four weeks to discuss progress toward goals and changes in intervention instruction. Using different methods of progress monitoring is extremely useful because this guides teachers to change rigor or the composition of small groups. Resource teachers use IEP goals and benchmarks to determine progress and provide additional accommodations if needed. Special education teachers are included in RtI meetings when a student is moved to Tier III and special education evaluation is a possibility. We currently have 2 part time certified teachers that provide Tier III instruction for Reading. Additionally, we have 3 interventionists that provide support and behavioral strategies that present challenges. Our ELL students receive assistance from their classroom teacher and 2 of our ELL teachers. Additionally, we have 2 Special Education teachers that provide accommodation assistance with students that have IEP's. Our guidance counselor also provides guidance classes on a weekly basis. Each student is greeted at the front door and classroom door in a unique way as well. The school offers tutoring before and after school four days a week. This includes tutoring at 1 of our housing authorities. The district Mental Health Liaison is available for counseling or to match counseling needs with our resources at CED Mental Health or Children's Rehabilitation Services.

**3. Describe how the school provides opportunities for the most academically needy students to receive support and reinforcement of academic skills Beyond the Regular School Day.**

Lessons are designed to provide tiered instruction allowing for students who struggle to receive intensive assistance from teachers. Teachers provide explicit small group or individual differentiated instruction to meet learners' needs. Teachers keep anecdotal notes to ensure

accountability. Teachers also use data breakdowns from Scantron testing to determine deficits in specific standards for individual students. These deficits are addressed through small groups.

The Reading Specialist is available to assist with individual assessments in an effort to determine instructional needs. In accordance with the Alabama Literacy Act, Striplin Elementary is providing an after-school and summer program for second grade students. The data has shown that the participating students have reading deficiencies in core foundational skills. Highly effective teachers have been hired to provide the direct, explicit, and systematic reading intervention instruction needed to improve their areas of reading deficiency. The school offers tutoring before and after school four days a week. This includes tutoring at 1 of our housing authorities. Also, we have a 21st CCLC after school program. Students are provided nutrition, time to exercise, assistance with homework, and additional assistance for Math or Reading.

**4. Describe procedures/strategies used to address academic challenges for each group of Migrant, English Learners, Economically Disadvantaged, Special Education, Neglected and/or Delinquent, and Homeless Students.**

All students at Striplin Elementary, including EL, economically disadvantaged, special education, neglected and/or delinquent and homeless [McKinney Vento] students, have access to all programs and services available including EL services, Title I, Title III, free and reduced lunch assistance, Special Education services, counseling, and all academic programming opportunities. All students are provided with the same opportunities to achieve high content and performance standards. Special populations are identified through screenings, referrals, language surveys, lunch applications, and parent or teacher requests for evaluations. Designated personnel provide specialized instruction, and inclusion services allow special populations to participate within the general education classroom environment. Challenges unique to each group are dealt with on an individual basis depending upon need. School resource teachers, counselors, EL coordinator, administrators and support staff work diligently to ensure all students, regardless of situation, disability, cultural or economic status receive the assistance and support required to be successful. Specific to Striplin, we are utilizing/hiring two part time certified teachers. Utilizing and hiring two ELL teachers. We currently have 2 Special Education teachers on campus that follow the IEP accommodations explicitly. We implement the 5 components of strategic teaching for reading per Alabama Reading Initiative. Students chart academic progress in Math and Reading. Teachers cover all assessment scores on a one on one basis.

**5. Describe how the school provides individual student academic achievement results and interpretation of the results to parents of English Learners in a language they can understand.**

W.E. Striplin will provide whenever possible written communication that the parents can understand, or provide a person who can speak the parent's native language to facilitate understanding. School information is provided to parents in a language that they can understand through interpreters or in forms/letters in the home language. Students are monitored in instruction and assessment and are provided accommodations by district personnel who also assist core teachers and EL students in the classroom. Pull-out sessions with the resource staff to teach language acquisition and writing skills as well as providing examples of accommodations to the core education teacher and training staff on the ACCESS data and WIDA standards. In addition, the school district has been assigned a Regional EL Coach to assist with Professional Development, Instructional Strategies, Students who do not make progress will be provided supplemental one-on-one or small group tutoring with the EL teacher to work on specific areas in which the student is experiencing difficulty. After each interim assessment (benchmark) has been administered (end of 4 week grading period and 9 weeks grading period), the EL teacher will collaborate with classroom teachers during grade level meetings to adjust/amend goals based on students' progress.

**6. What is the school's teacher turnover rate for this school year?**

Striplin Elementary maintains a strong faculty and staff. During 2022-2023, one teacher relocated to South Alabama and one retired. We hired 5 new teachers this past Summer. However, our turnover rate is extremely low.

**7. What is the experience level of key teaching and learning personnel?**

All key teaching personnel have earned at least a Bachelor's degree in elementary education. 33 teachers have earned a Bachelor's Degree, 23 teachers have earned a Master's Degree, and 2 teachers have earned a Specialist's Degree.

**8. If there is a high turnover rate, what initiatives has the school implemented to attempt to lower the turnover rate (recruitment and retention strategies)?**

Gadsden City Schools visits teacher job fairs at local teacher colleges to recruit teachers to our district. SES provides considerable support for new teachers and staff who need mentoring. Professional development is provided throughout the school year and funds are made available for teachers requesting to attend professional learning sessions. Opportunities for professional growth improves the skills of teachers and allows them to more effectively address the learning needs of all students in their classes. Novice teachers are paired with mentor teachers who guide them through their first year (or two) of teaching. Staff who change grade levels or areas of instruction are also paired with peers to provide needed support. We use the ALSDE Mentoring program.

**9. Describe how data is used from academic assessments to determine professional development.**

In the Spring of 2023, teachers completed a Needs Assessment to include professional learning needs. Teachers identified three particular areas of need: Reading, Writing and Math. Specific issues listed in the reading area included oral reading fluency strategies and instructional strategies for struggling readers.

We've used Scantron and DIBELS scores to place students for reading. Additionally, we will provide reading professional development to meet our needs. Professional development will be provided via staff meetings to make this data beneficial to the students, parents, teachers and all stakeholders. Teachers also listed on-going professional development needs including mental health, classroom management and positive behavior, ACAP, RtI instructional strategies, and student engagement. Teachers will participate in activities at school covering topics from the Needs Assessment during in-service and data meetings during the 2023-2024 school year.

**10. Identify the professional development opportunities for teachers, principals, paraprofessionals, and other school personnel to improve instruction.**

SES teachers participated in intense training in order to prepare for virtual instruction. Teachers also participated in training for various assessments including STAR Math, and DIBELS 8. Additional training opportunities for these assessments as well as ACAP will be offered throughout the year. ACAP Testing, K-3 Literacy Training, RtI (target skills and suggested learning objectives), Scantron data analysis, CLAS Conference, TECH Conference, and MEGA Conference are additional opportunities for professional development. Gadsden City Schools has provided professional

development in strategic teaching, formative assessment, and multi-sensory teaching methods. Alabama College and Career Readiness Standards training on reading, mathematics, science standards and technology training. AMSTI training is offered to teachers during the summer. Provide professional development to assist students who may have difficulty reaching academic success due to physical, emotional or behavioral issues. We are also working to provide Orton- Gillingham training.

**11. Identify the teacher mentoring activities included in the schoolwide plan. For example, new or inexperienced teachers are given support from an assigned master teacher.**

Novice teachers are paired with mentor teachers who guide them through their first year of teaching. Staff who change grade levels or areas of instruction are also paired with peers to provide needed support. Administrators observe and meet with new teachers often to provide feedback regarding instruction and classroom management. The principal meets with the Reading Specialist and mentors to ensure that novice teachers receive critical support from the district level.

**12. Describe how all professional development is "sustained and ongoing."** Professional development activities are of high quality, effective and research based. They include opportunities for teachers, the principal, paraprofessionals and parents. Professional development is grade specific, subject specific and data based. Most of the professional development activities scheduled have been identified through the 2020 Spring Needs Assessment, stakeholder input and support school goals. Professional learning is scheduled to occur during each month of the academic year. Gadsden City Schools videos all PD and it is held in the cloud so that it can be shared virtually and ongoing throughout the year as new teachers come into the district or as a need is shown.

**13. Identify the strategies in the schoolwide plan that support and assist students in transitioning from one grade level to the next. For example, preschool preparation for Kindergarten and/or eighth grade transition to high school and/or highschool to college/workforce.**

Transition activities at the beginning of the school year were done virtually. A grade specific Parent Orientation presentation was posted on the school website. To help ease the transition from Striplin Elementary, fifth graders will tour Gadsden City Middle School in May, 2024. Fifth grade teachers will also talk with fourth grade students in May to make them aware of expectations. In addition to these, the Back-to-School Night held at the

beginning of each school year provides an opportunity for parents and students to meet teachers, gain information about the upcoming school year, and ease the stress of new experiences. In sharing data for transition, the School Leadership Team has developed charts of testing data that compares the most recent tests with the test from the previous year. The team will meet and present each grade with the graphs/charts. From this meeting, each teacher will discuss and will be asked to look at strengths and weaknesses to ensure that weak areas are being covered sufficiently before the upcoming Spring Assessments. Teachers will involve parents in conferences and discussions about their child's progress. Testing data is evaluated by the PST Team when a student is referred. We meet with the pre-school agencies and with the middle schools to discuss student achievement and progress at the beginning and the end of the year."

Goal 1: Engage and Empower the Learner Through Technology  
 Measurable Objective 1: 50% of Kindergarten, First, Second, Third, Fourth and Fifth grade Black or African American, Asian, White, Economically Disadvantaged, Gifted and Talented, Hispanic or Latino, Students with Disabilities, English Learners, Two or More Races, American Indian or Alaska Native and Native Hawaiian or Other Pacific Islander students will demonstrate a behavior use digital tools, individually and collaboratively, in and out of the classroom to gather, organize, evaluate, and share in Career & Technical.

Goal 2: At least 3% of students at W E Striplin Elementary students will become more proficient in reading.  
 Strategy1: Strategic Teaching Strategies - All content-area teachers will open each lesson with a posted student-friendly outcome.  
 Strategic Teaching Strategies - All content-area teachers will open each lesson with a posted student-friendly outcome, which will be revisited throughout the lesson for understanding (formative assessment). Teachers will begin each class by establishing a purpose for the lesson and will use before, during, and after strategies to engage students throughout the lesson. Category: Develop/Implement College and Career Ready Standards  
 Research Cited: Alabama Reading Initiative and AMSTI research  
 Goal 3: At least 3% students at W E Striplin will become more proficient in math.  
 Strategy1: Intervention - The teacher will utilize small group intervention, Title I Resource Personnel, STAR Math progress monitoring, Response to Instruction, STRIDE Academy, Go Math to help students become proficient in Math.  
 Goal 4: Our vision is to engage and inspire students. It will be accomplished by exposing students to a variety of settings and activities.  
 Strategy1: Exposure - Students will be offered opportunities during school hours to attend field trips related to this goal. Category: Other - Inspire and Engage  
 Category: Other - Inspire and Engage

**14. Special Populations as listed in the Carl D. Perkins Career and Technical Education Act of 2006 - Describe procedures used to address**

**challenges for each group of individuals with disabilities, individuals from economically disadvantaged families (including foster children), individuals preparing for non-traditional fields, single parents (including single pregnant women), displaced homemakers, and individuals with limited English proficiency.**

**(N/A for Elementary Schools)**

**1. How does the school evaluate the results achieved by the schoolwide program using data from the State's annual assessments and other indicators of academic achievement?**

Striplin Elementary engages in a systematic, inclusive, and comprehensive process to review, revise, and evaluate the school-wide program. In August, important Title I information was distributed at the Back-to-School event. The Parent School compact is discussed and all parties sign it, committing themselves to be active partners in their student's education. Multiple meetings are scheduled to ensure that all stakeholders are informed of programs and their purposes. The Title I Advisory/aCIP Committee meets to review the Needs Assessment, survey results and aCIP evaluation from the previous year and creates and/or revises goals for the new aCIP. On August 24, 2023, the Annual Meeting of Title I Parents was conducted at two different times to maximize parent engagement. This meeting provides parents with valuable information about what being a Title I school means and their rights to be involved through decision making. The Parental Involvement Plan is distributed and discussed. Other pertinent information regarding Title I resources is shared. Assessment data is shared in multiple venues in order to keep stakeholders informed about the effectiveness of the school-wide programs. Longitudinal information regarding student success is shared. Parents are continually asked to give input regarding school processes. This input is used to make SES a stronger school. An end-of-the year Title I Program Evaluation is completed by faculty in May. This evaluation focuses on evidence-based research strategies used by the teachers, participation in professional development, parental involvement, transition strategies, involvement in decision making, and effective timely assistance to students. Results from state assessments and other academic indicators of success (local and district assessments) are analyzed and results shared with all stakeholders via the school newsletter, reports,

conferences, and open house nights. These results are used to evaluate program effectiveness and determine where change is needed. Instructional practices are reviewed and altered to maintain quality education in the classroom. Attendance data and behavior data are also examined because they so greatly influence academic achievement. This information is used to make program revisions and identify ways to overcome obstacles that inhibit success.

**2. How does the school determine whether the schoolwide program has been effective in increasing the achievement of students who are furthest from achieving the standards?**

Benchmarks for all tests are used to determine effectiveness of our school-wide program. Analysis of assessment data allows faculty and staff to identify students who have not met proficiency levels. Teachers utilize this information to plan timely intervention through tiered and differentiated instruction. Progress monitoring is done consistently so that instructional strategies can be changed if needed. Progress reports for students identified with special needs are examined each nine weeks to ensure effective progress is made related to identified goals. Multiple avenues of intervention are available to support student learning. Resource staff work inclusively or in pull-out sessions to aid students with individualized plans. RtI plans are written and implemented to provide these struggling students with specific intervention. Data is continuously gathered to determine gains or modify instruction.

**3. What process is followed by the school to revise the plan as necessary, based on the evaluation, to ensure continuous improvement of students in the schoolwide program?**

Striplin Elementary School engages in a systematic, inclusive, and comprehensive process to review, revise, and evaluate the schoolwide program. Twice during the school year (December and May), teachers are asked to evaluate Continuous Improvement Plan (aCIP) goals/strategies. They are also required to list specific steps that their grade level has taken to help students achieve the aCIP academic achievement goals. In the spring, students, parents and other stakeholders are also asked to evaluate the aCIP and its effectiveness. Results of these evaluation and additional input gleaned from surveys allow administrators and faculty to determine program effectiveness. Modifications to the aCIP, as well as instructional strategies, are made to ensure continuous improvement of students. School support teams

come in to review programs and instruction. Feedback is shared with the principal and teachers and our school-wide plan is updated and revised.

NOTE: Not all schools receive all of the funding sources mentioned.

**1. List the State, Federal and local programs that are consolidated/coordinated in the schoolwide program and describe how all programs and resources are coordinated and integrated toward the achievement of the schoolwide goals.**

There are several monetary sources that are integrated and coordinated into the financial management and instructional planning of Striplin Elementary School. All programs and services implemented at SES are coordinated and integrated for the purpose of achieving school-wide goals. Federal, state and local funds are used to provide professional development, hire highly qualified personnel, purchase instructional supplies, equipment and parent resources. Coordination of monies and resources are used to implement needed programs. Funds used for professional development allow teachers to receive training to improve instruction. As a result, teachers deliver quality instruction to equip students in mastering rigorous state standards. Federal and local funds are designated for materials and equipment and provide equitable learning opportunities for impoverished students. Federal funds are used to maintain a Parent Teacher Resource Center allowing school and home to share responsibility for improved student academic achievement. Overall, The State Department of Education funds teacher units based on student enrollment. -Title I- monies are being used to fund professional development, instructional supplies and materials. -Title II- Part A (Federal)-This money will be used for Professional Development activities. --Title III-English Language Learners (ELL)(Federal); This money is used to provide supplemental activities for ELL students.

**2. How does the school coordinate and integrate the following Federal, State and local services in a manner applicable to the grade level to support achievement of the schoolwide goals: violence prevention programs, nutrition programs, housing programs, Head Start, adult education, career and technical education programs, and**

**schools implementing comprehensive support and improvement activities or targeted support and improvement activities under section 1111(d).**

There are many programs and resources that are implemented at Striplin Elementary to ensure the achievement of school-wide goals. Coordination of monies and resources: Title I, Title II and Title III at the district and local levels are used to implement needed programs. All funding sources are used to upgrade/enhance the regular education program at SES. Budgeting focuses on enhancing instructional goals, school operations and other strategies designated in the aCIP. Centralized monies are pooled at the Central Office to provide system services and programs. More than 90% of the student population at SES receives federal lunch assistance. SES is designated as school-wide Title I status and uses the money received through this federal funding to improve the academic opportunities of all students.

## ACIP Assurances

Instructions:

By responding to the questions attaching evidence where required, the institution has verified whether it meets or does not meet each of the required ACIP Assurances.

1. The school's ACIP is developed with the involvement of parents and other members of the community to be served and individuals who will carry out such plan, including teachers, principals, other school leaders, paraprofessionals present in the school, administrators (including administrators of programs described in other parts of this title), the local educational agency, to the extent feasible, tribes and tribal organizations present in the community, and, if appropriate, specialized instructional support personnel, technical assistance providers, school staff, if the plan relates to a secondary school, students, and other individuals determined by the school. (Sec. 1114, (b) (2))

Upload the signature page of your ACIP committee members. Upload any additional attachments if needed regarding your ACIP.

YES

NO

N/A

2. The institution has a Parent and Family Engagement policy and plan as required in ESSA Section 1116, and ensures that all requirements in Section 1116

and 1112(e)(1)(A) (i)-(ii), Parents' Right-to-Know, are implemented systematically.

YES

NO

N/A

3. The institution has a School-Parent Compact. If a Title I school, the School-Parent Compact contains the required components (ESSA Section 1116 (d) and was jointly developed with parents of participating students.

## **Parent and Family Engagement**

### **1. Describe how the school will convene an annual meeting to inform parents of the school's participation in Title I and explain Title I requirements, including the 1% set aside, and the rights of parents involved. (Sec. 1116(c)(1))**

We met in September to conduct our annual title meeting and utilized a PowerPoint to share. Topics include: What it means to be a Title I school, 1% set-aside, CIP, Family Engagement Plan, LEA Parent & Family Engagement Plan and Title Plan, School-Parent Compact, highly effective teacher status, how to request the qualifications of teachers, Parent Teacher Resource Center, and how to be involved in the Title I program at SES. Family input is encouraged on how the 1% set-aside is to be spent and the end of the year evaluation to determine program effectiveness.

### **2a. Describe how there will be a flexible number and format of parent meetings offered, such as meetings in the morning or evening, and may provide, with funds provided under this part, transportation, child care, or home visits, as such services relate to parental involvement.**

The Annual Title I Parent/Family Meeting was offered as a virtual presentation. Parents were encouraged to watch the presentation and then reply to a short survey. Other meetings for parents are held in multiple sessions throughout the year. Three Parent Orientation Meetings will be held. Pre-K parents will meet prior to the beginning of the school year. Parents of upcoming kindergarteners, first graders, and second graders meet in separate sessions in the spring. Parents are also encouraged to attend a transition event in the spring for fifth graders as

they move to Gadsden City Middle School. Parents are informed of school programs and assessments and encouraged to give feedback regarding this information. Parents also participate in programs specifically planned to assist them in being an active part in their children's education. Two family events will be held this year. One will be in November and the other will be held in December. These events, as well as any additional events that may be planned, may be held virtually because of COVID-19 protocols. Parents are informed of how money is spent to provide them with resources to better assist their children at home. Items purchased with the 1% set-aside are kept in the Parent Teacher Resource Center. Parents serve on the Title I Advisory Committee and represent the parent body by giving input, making decisions on how to spend designated funds and program evaluation.

We hold an annual Book Fair, "Reading Together Forever Initiative", etc. Also, I conducted a survey via google slides to see the most optimal time to meet. We also have an open door policy for parent meetings and provide opportunities for meetings before, during, plus after school hours.

**2b. Describe how parents will be involved in the planning, review and improvement of the Title I Program (Note: State the school's process for how all Title I parents have the opportunity for involvement in decision-making).**

Parents are notified about curriculum, programs, and assessments throughout the school year. In the fall, parents are invited to learn about the Title I program, spring assessment data, the CIP and the target goals that will be a focus throughout the year. Parents are kept informed of curriculum, assessments and other pertinent information via the monthly school newsletters, teacher correspondence, weekly call outs by principal, and websites. In carrying out the Title I, Part A, parental involvement requirements, to the extent practicable, the school will provide full opportunities for the participation of parents with limited English proficiency, parents with disabilities, and parents of migratory children, including providing information and school reports required under Section 1111 of the ESEA in an understandable and uniform format and, including alternative formats upon request, and, to the extent possible, in a language parents understand. We have a Title I Committee that provides a platform for parent suggestions. Also, parents' opinions, ideas, views, etc are always heard on behalf of our staff. We are one team working to educate all of our students.

**2c. Describe how funds allocated for parent involvement are being used in the school. (Sec. 1116(c)(2)(3)).**

Funds allocated for parental involvement are being used in the school for the Parent Teacher Resource Center and Readiness Packets. Parent involvement funds will be spent to provide training on the importance of literacy.

**3. Describe how the school provides parents of participating children timely information in a uniform format and, to the extent practicable in a language they can understand, about programs under Title I, a description and explanation of the curriculum in use, forms of academic assessments, and achievement expectations used, and, if requested by parents, opportunities for regular meetings to formulate suggestions and participate as appropriate in decisions related to the education of their children. (Sec. 1116(c)(4)(A)(B)(C))**

Parents are notified about curriculum, programs, and assessments throughout the school year. In the fall, parents are invited to learn about the Title I program, spring assessment data (not available this year due to COVID), the CIP and the target goals that will be a focus throughout the year. Parents are kept informed of curriculum, assessments and other pertinent information via the monthly school newsletters, teacher correspondence, weekly call outs by principal, and websites. In carrying out the Title I, Part A, parental involvement requirements, to the extent practicable, the school will provide full opportunities for the participation of parents with limited English proficiency, parents with disabilities, and parents of migratory children, including providing information and school reports required under Section 1111 of the ESEA in an understandable and uniform format and, including alternative formats upon request, and, to the extent possible, in a language parents understand.

**4. Describe how parents, the school staff, and students share responsibility for improved student academic achievement for participating students (How the School Parent Compact is jointly developed with Title I parents; how it is used, reviewed, and updated). (Sec. 1116(d))**

The School-Parent Compact is reviewed and/or revised as needed. All stakeholders share the responsibility of student achievement at SES. Input from stakeholders (needs assessments, program evaluation, committee representation, etc.) is used to guide decision-making and the development of various plans. Parents are asked to partner with faculty and staff to participate in the educational process by volunteering, tutoring, serving on committees, and supporting various endeavors and programs. The School-Parent Compact is a part of an ongoing partnership with parents, school personnel, and students. It is discussed

and signed by teachers, parents, and students at the opening of school and kept on file by teachers as a reminder of the commitment of all stakeholders. The School-Parent Compact designates the requirements of all stakeholders so that there is a shared responsibility for improved student academic achievement. Due to COVID-19 protocols, volunteer and tutoring opportunities will not be available this school year until further directions are received from the district. SES has an annual meeting to discuss the focus of the school and invite all stakeholders. Also, the school compact outlines the responsibility of the teachers, parents, students, and all stakeholders. Compacts (signed) are retained in students' cumulative records.

**5. Describe procedures to allow parents to submit comments of dissatisfaction with the Continuous Improvement Plan. (Sec. 1116(c)(5))**

Parent input is gathered during the development of the SES Continuous Improvement Plan (CIP). Once the plan has been developed and approved, parents are encouraged to review the CIP which is housed in the Parent Teacher Resource Center (PTRC) in the media center and the school office. Notification about the plan and its review is distributed through school newsletters and parent meetings. Parents are informed that if they have questions or concerns or if they are dissatisfied with the plan, they may contact the principal or any member of the planning committee to express their concerns. Parents may also contact the Federal Programs Administrator at the Central Office with any questions or concerns. We strive to upload a plan on our school website.

**6a. Describe how the school will build capacity for parental involvement including how parents will be encouraged to become equal partners in the education of their children. (See ESSA Sec. 1116, requirements for building capacity and parental and family engagement).**

**To ensure effective involvement of parents and to support a partnership among the school, parents, and the community to improve student academic achievement, our school:**

**Shall provide materials and training to help parents to work with their children to improve their children's achievement, such as literacy training and using technology, as appropriate, to foster parental involvement.**

Parents are invited to multiple meetings and encouraged to attend. We provide training for our parents on literacy and the importance of

families working with schools. Homework is sent home with clear directions as to how to help. We are consistently researching ideas and discovering ways to improve this component in our school. Lastly, we have educators tutoring and working at one of our housing authorities. A Parent Teacher Resource Center is available to Gadsden City School students/parents and offers a wealth of materials for parents to use in working with their students. The resources are available for parents to check out during the school day and during school sponsored evening events. A computer and printer are also available for parents to use. (Resource check-outs and computer use are not available at this time due to COVID-19.) Additional academic resources are provided online through links on the Gadsden City Schools and SES websites. Parents are continuously informed about student progress through weekly folders, PowerSchool Home Portal, mid-term progress reports and end of grading period reports. They are encouraged to use these items to communicate with teachers regarding student progress and to participate with teachers to improve achievement. Results of the beginning of the year assessments may be discussed with parents on an as needed basis. Parents receive information regarding assessments, curriculum and programs at parent meetings and through monthly school newsletters. At various times during the year, parents are provided with information regarding assessment results, the LEA Elementary Programs Guide (containing College and Career Ready Standards), Title I information, the CIP and how it relates to student achievement, state and local programs/initiatives, and ways in which they can be more directly involved with their child's education. A Title I Parent Meeting was held through a virtual presentation in the fall to inform parents and discuss the requirements of this federal program (the CIP, parental involvement, status of teachers, Parent's Right to Know and other items pertinent to Title I). Additional opportunities for parents/family members to participate will be done virtually because of COVID-19 protocols

**6b. Describe how the school will build capacity for parental involvement including how parents will be encouraged to become equal partners in the education of their children. (See ESSA Sec. 1116, requirements for building capacity and parental and family engagement).**

**To ensure effective involvement of parents and to support a partnership among the school, parents, and the community to improve student academic achievement, our school:**

**Shall educate teachers, office personnel, and other school staff, with the assistance of parents, in the value and utility of contributions of**

**parents, and in how to reach out to, communicate with, and work with parents as equal partners, implement and coordinate parent programs, and build ties between parents and the school.**

We will conduct home visits, tour our school zone as a faculty, and are required to meet with parents when requests are made. We are also learning more through school Professional Development while working with challenging students. The role of parents in the educational process is continuously addressed with school personnel. SES strives to partner with parents in every area of their child's education. Emphasis on the need for close school-home communication is included in faculty meetings, grade level meetings, in-services, etc. Teachers maintain a Parent Contact Log to document school-home connections. Parent and family engagement is a continuous area of focus at SES.

**6c. Describe how the school will build capacity for parental involvement including how parents will be encouraged to become equal partners in the education of their children. (See ESSA Sec. 1116, requirements for building capacity and parental and family engagement).**

**To ensure effective involvement of parents and to support a partnership among the school, parents, and the community to improve student academic achievement, our school:**

**Shall to the extent feasible and appropriate, coordinate and integrate parent involvement programs and activities with other federal programs, and conduct other activities, such as parent resource centers, that encourage and support parents in more fully participating in the education of their children.**

SES coordinates multiple federal programs (such as Title I and Title III) with parental engagement to ensure that all parents are equipped to participate in their students' education. Our school's EL facilitator and the district EL supervisor assist the families of our EL students in understanding and actively engaging in school programs, etc. to improve student achievement. Parent training/conferences are ongoing throughout the school year. The Parent Teacher Resource Center (PTRC) provides valuable materials for home use. Counselors maintain resource areas containing pamphlets, books and research-based articles within their offices. These resources address parenting issues and provide information on how parents can assist their children with social and academic concerns.

**6d. Describe how the school will build capacity for parental involvement including how parents will be encouraged to become equal partners in the education of their children. (See ESSA Sec. 1116, requirements for building capacity and parental and family engagement).**

**To ensure effective involvement of parents and to support a partnership among the school, parents, and the community to improve student academic achievement, our school:**

**Shall ensure that information related to school and parent programs, meetings, and other activities is sent to the parents of participating children in a format and, to the extent practicable, in a language the parents can understand.**

All major information is shared in English and Spanish. English and Spanish are our primary languages. Also, Schoolcast, Remind messages, Facebook posts, and school letters are frequently sent. Parents are notified about meetings, programs and various activities through monthly school newsletters, informational flyers, the school marquee, the school website, principal callouts and individual teacher websites and blogs.

**6e. Describe how the school will build capacity for parental involvement including how parents will be encouraged to become equal partners in the education of their children. (See ESSA Sec. 1116, requirements for building capacity and parental and family engagement).**

**To ensure effective involvement of parents and to support a partnership among the school, parents, and the community to improve student academic achievement, our school:**

**Shall provide such other reasonable support for parental involvement activities as parents may request.**

SES strives to involve parents in every aspect of school life. Faculty and staff members work with parents regarding their requests to be involved with their children's education. Parental input is valued and used to modify program offerings as well as procedures (if appropriate). Input is gathered through surveys, program evaluations, and informal suggestions. We currently have a social worker, Mental Health Liaison, partnerships with the United Way, Quality of Life and other community partners to assist with family needs.

**7. Describe how the school will ensure the provision for participation of parents and family members (including parents and family members who have limited English proficiency, parents and family members with disabilities, and parents and family members of migratory children), including providing information and school reports required under section 1111 in a format and, to the extent practicable, in a language such parents understand. (See ESSA Sec. 1117(f))**

All parents are encouraged to participate in the educational process including parents with limited English proficiency and parents with disabilities. The school's EL facilitator and the district EL supervisor assist in providing information (reports, notices, etc.) to parents in a language they understand. Handicap parking places are positioned close to the front entrance and sidewalks have sloped sections that allow for wheelchair accessibility. Restrooms are equipped with handicap stalls, allowing extra space for maneuvering. Currently there are no migrant students at SES.

## Coordination of Resources - Comprehensive Budget

Step 1: Download and complete the [Coordination of Resources - Comprehensive Budget document](#).

Step 2: Upload the completed Coordination of Resources - Comprehensive Budget document.

I have completed and uploaded the Coordination of Resources - Comprehensive Budget.

I have not completed and uploaded the Coordination of Resources - Comprehensive Budget.
